Have you ever thought about the concept that your home is a mirror of your life? We fill our homes with artwork, ornaments and items that we collect, and they often reflect who we are and where we've been, as opposed to who we want to be and where we truly want to go to! Begin to understand how your home is a mirror of your life and how your choice of artwork reflects your circumstances. Understand how to use this pattern of energy to it's fullest potential to benefit your future. Work with this concept to enable you to have a life review and re-style and jump start your life. Realise how to create a nurturing sanctuary within your home, and help support yourself as you move towards your dreams and goals. Learn how to bring your life into total balance and harmony and embrace a future of opportunity and unlimited potential. Embrace the gift of a new pair of eyes and be in love with life!

My aim for the day is to share my work and understanding with you, to help you open a doorway to possibility and your own unique and individual unlimited potential in a gentle, safe, yet accelerated way.

I have been working professionally as a Feng Shui Consultant since 1998. When I first began to study Feng Shui I felt it was simply an extension of Interior Design for the home. I had no concept of the total personal transformation that I would experience as my knowledge with this subject grew, in effect changing me from one of life's caterpillars to a truly liberated butterfly! These days while working with others during workshops and individual consultations I see many others follow this path of freedom of the heart.

To confirm your attendance please complete your details below. Your investment for the day is £50.00. Please contact me to reserve your place and arrange payment details, and then I will send you confirmation together with a Feng Shui Questionnaire, which you complete prior to the day and bring it along with a floor plan of your home. This will help prepare you to become focused on your intentions for your future, gain a clear idea of implementing changes in your home, take the first steps to open yourself to unlimited potential and ensure this day is the best investment of your life!!!
