Recognise the Power of your Pictures with Feng Shui

Have you ever thought about the concept that your home is a mirror of your life? We fill our homes with artwork, ornaments and items that we collect, and they often reflect who we are and where we've been, as opposed to who we want to be and where we truly want to go! Begin to understand how your home is a mirror of your life and how your choice of artwork reflects your circumstances. Working with Feng Shui enables us to have a life review and re-style and jump start our lives. Realise how to create a nurturing sanctuary within your home, and help support yourself as you move towards your dreams and goals. Learn how to bring your life into total balance and harmony and embrace a future of opportunity and unlimited potential. Embrace the gift of a new pair of eyes and be in love with life!

Having worked professionally as a Feng Shui Consultant since 1998, whenever I visit a home it tells me exactly what is going on in the occupants' life before they share any of their innermost thoughts. Particularly the powerful effect pictures have on their sub-conscious mind in the choice of images. The way you choose to display them says it all! They often reflect who you are and where you've been, as opposed to who you want to be and where you want to go. The first visual image you see when you wake up in the morning and the last you see when you turn off the light, being the MOST powerful of all! During an enlightening Power Point presentation I will relate many real life experiences with animated humour. I promise to send you home with a new pair of eyes.

“Understanding the Power of Prayer and Intention”

Insight on the origins and journey of my “Global Peace Prayer” and how the continual use of positive words and language raises our own individual level of vibration and changes lives in our world today. Mark Penn has written a book called “Microtrends: The small forces behind tomorrow's big changes” and says: ***“It takes only 1% of people making a dedicated choice – contrary to the mainstream choice – to create a movement that can change the world”***. Share a new understanding in your own Circle of Light and help towards magnifying our intention and create the tipping point for WORLD PEACE.

"Pay it forward" and our "Global Peace Prayer"

There is a film called "Pay It Forward", which tells the story of a simple message created by a 12 year old boy called Trevor. He was involved in a school project where he had to think of an idea for world change and put it to action. He thought he would start by doing something good for 3 people, and instead of paying him back, he asked them to "Pay It Forward" by doing a favour for three more people thereby creating a new currency and a long chain of human kindness. Through active discussion we can focus on how we as individuals can all make a difference in our world in the smallest of ways using the gift of time and sharing simple kindness in our lives. We can look deeper into the words of our Global Peace Prayer and use this as a strong foundation and basis for life, seeding the words deep within you, within ALL you do and ALL you are. As change happens within the individual the ripples around the world create a tsunami of LOVE. Make sure you're part of this whole new way of BEing.

I've always believed that to make any relationship work you need to give until you think you've given enough, then give a bit more... This falls into place, as one of the Laws of the Universe is whatever you give unconditionally and with LOVE will come back to you in many unlimited ways. An active discussion of ideas to magnify the wonders of love in your life!

It is also invaluable in helping to understand your relationship with yourself and others. This can be a life time study in itself which can lead you to investigate the energies of your family and friends, and other more known personalities as your fascination with the subject grows.
